

THE FUTURE OF **SHIFT** **MANAGEMENT** IS HERE.

MANAGE PEOPLE - NOT PAPER.

RosterApps is a workforce management solution that offers superior scheduling capabilities and employee self-service - accessible anytime, anywhere. Presented as an SaaS web application, RosterApps does not require you to install, update, or maintain any equipment.

WHY ROSTERAPPS?

- Ensures schedules are covered for minimum viability
- Provides one source of truth in one system with complete work log history for valuable reporting
- Better and instant visibility to schedule changes
- Provides a managed self service model giving you more time to oversee important issues, and employees more control over schedules
- Powerful integration capabilities make certain you maximize existing investments and use of your Time & Attendance or Human Resources Information Systems (HRIS)

FEATURES:

- Administrators can create shift/vacation bids, manage employee information, and more
- Web-based with security protocols specific to critical infrastructure providers
- Flexible and configurable rules that can vary by work group or individual employees
- Electronically approve/deny requests, assign overtime, mark employees late/absent
- Automatic email and text notifications
- Employee self-service including shift bidding, vacation bidding, trade requests, time-off requests, and overtime requests
