

Southern Maryland Electric Cooperative

CO-OP TYPE: Distribution METERS: 165,567

LOCATION: Hughesville, Maryland

GOAL

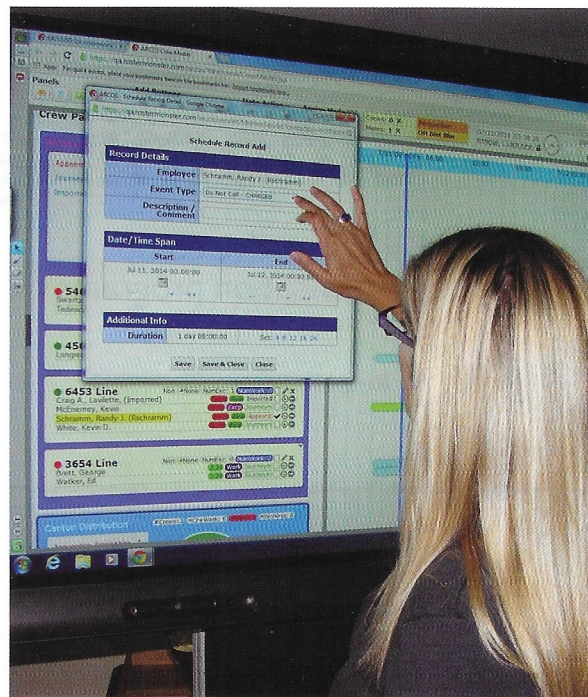

Bring greater efficiency to the time-consuming process of assembling crews and equipment for assignments in the field.

SOLUTION

The co-op deployed ARCOS Crew Manager (arcos-inc.com), which allows them to see where and how long service and construction crews are working and create digital snapshots of which crews and equipment are available minutes, hours or even weeks ahead.
